## PROFILE

Software Developer with hands-on experience building websites and mobile applications. I enjoy turning ideas into practical, user-friendly digital experiences with a strong focus on presentation, usability, and attention to detail. My experience spans development, databases, design tools, and data-driven applications.

I enjoy working at the intersection of technology and creativity, exploring how digital experiences can communicate ideas effectively and engage users. I am adaptable, collaborative, and always interested in learning new tools and approaches.

## PROJECTS

### Project Kresta

SOCIAL MEDIA MANAGEMENT APP • Apr 2025 – May 2025

A web application designed to help users manage social media content, organise posts, collaborate through shared workspaces, and view account performance in one place.

- Led the development of the core functionality for a user-focused social media management application.
- Worked with designers and developers to turn ideas into a consistent digital experience.

### Calorie Counter

ANDROID APPLICATION • May 2024 – June 2024

A mobile application that allows users to record meals and monitor their daily calorie intake.

- Designed and developed an app for tracking daily meals and calorie intake.
- Created a simple interface for adding and organising meals.

### Data & AI Project

MACHINE LEARNING APPLICATION • Nov 2024 – Dec 2024

A data-driven application that processes information to identify patterns and generate predictions.

- Prepared and processed data for use within the machine learning model.
- Applied data analysis and machine learning techniques to identify patterns and generate predictions.

## EDUCATION

### BSc (Hons) Creative Computing

BATH SPA UNIVERSITY RAK • 2022 – 2025

- Awarded High Honours for strong academic performance
- Member of the University Chess Varsity

## HARD SKILLS

- Web Development — HTML, CSS, JavaScript, React
- Backend Development — Node.js, REST APIs
- Database Management — MySQL, MongoDB
- Programming — Python, Kotlin, PHP
- Data — Data Collection, Processing, Analysis
- Creative Tools — Figma, Adobe Premiere Pro, Canva

## SOFT SKILLS

- Communication
- Collaboration
- Problem-Solving
- Adaptability
- Attention to Detail
- Quick Learner

## INTERESTS

- Coding Projects
- Cybersecurity & CTFs
- Chess
- Tabletop Games
- Technology & Innovation
