PROFILE

Software Developer with hands-on experience building websites and mobile applications. I enjoy turning ideas into practical, user-friendly digital experiences and collaborating on projects. Experienced across development, databases, design tools, and data-driven applications.

I have experience working across both the technical and creative sides of projects, including website development, databases, design tools, and data-driven applications.

PROJECTS

Project Kresta

RESPONSIVE WEB APPLICATION • Apr 2025 – May 2025

- Led development of the application's core systems and functionality.
- Collaborated with designers and developers to turn ideas into a working product.
- Improved the website's usability and overall user experience.

Calorie Counter

ANDROID APPLICATION • May 2024 – June 2024

- Designed and developed an app for tracking daily meals and calorie intake.
- Created a simple interface for adding and organising meals.
- Focused on making the application straightforward and easy to use.

ADHD Prediction Model

MACHINE LEARNING ALGORITHM • Nov 2024 – Dec 2024

- Developed a data-driven application for identifying patterns and making predictions.
- Worked with data preparation, analysis, and machine learning techniques.

EDUCATION

University Graduate

BATH SPA UNIVERSITY RAK • 2022 – 2025

- Awarded High Honours (2022 – 2025)

HARD SKILLS

- Web Development — HTML, CSS, JavaScript, React
- Backend Development — Node.js, REST APIs
- Database Management — MySQL, MongoDB
- Programming — Python, Kotlin, PHP
- Data — Data Collection, Processing, Analysis
- Creative Tools — Figma, Adobe Premiere Pro, Canva

SOFT SKILLS

- Critical Thinking
- Problem-Solving
- Adaptability
- Quick Learner
- Communication
- Teamwork

INTERESTS

- Coding Projects
- Cybersecurity & CTFs
- Chess
- Technology & Innovation
